

# exel<sup>®</sup> MOTOR

www.exel-motor.fr

Combination of 5 special formulas which ensure the significant reduction of emissions of polluting fumes

## multi-fonctions<sup>®</sup> 5 in 1 COMPLETE CLEANER

*if your car finally respected the environment?*

### WHEN TO USE IT?

To clean the 5 sensitive organs of the motor:

- FAP (Particle filter)
- TURBO
- CATALYST
- INJECTORS
- VALVES

### PROPERTIES

- **Facilitates** the regeneration of the particle filter.
- **Cleans** the turbo part of the exhaust.
- **Cleans** the catalyst.
- **Cleans** the valves.
- **Cleans** the combustion chamber and resets the valve doors.
- **Cleans** and returns the correct flow of injectors making the engine much more flexible use and therefore a clear reduction in fuel consumption.

### RECOMMANDATIONS FOR USE

Once a year or 10 000 km.

### NOTICE

- Pour the contents of the bottle into the fuel tank before refueling.

### ADVANTAGES

- Avoids fouling of the FAP
- Completely disconnects the 5 sensitive organs of the moto
- reduces fuel consumption
