Kit Ice wash anti-freeze

6 EFFERVESCENT TABLETS

Concentrate of effervescent, cleansing and "anti-freeze" active ingredients to form an effective, ready-to-use washer fluid.

PROPERTIES :

In the form of tablets for simpler and more convenient use than traditional packaging: easy to store, always available, anti-waste, eco-friendly, no alcohol, no phosphates.

A suitable dosage also makes it possible to obtain an anti-freeze washer fluid for the winter (-10 °).

COMPOSITION :

Nonionic and anionic surfactants, mineral salts, effervescent agents and anti-gels.

SECURITY :

Do not swallow. Keep out of reach of children.

The exel motor® washer kit consists of a tube of 5 effervescent tablets and a reusable 3-liter flexible bag including a 6th ready-to-use tablet. Slip into the glove box, this kit is very compact and can get the equivalent of **18 liters** of windshield washer!

- + **Practical.**
- + **Economic.**
