exel power3[®] Racing

1 LITER TURBO ENGINE

exel power3[®] Racing is an additive to improve the fuel octane number and therefore engine performance.

WHEN TO USE IT ?

In competition use.

PROPERTIES

- Do not attack the fuel filter.
- Improves the response time of the motor to acceleration.
- Removes rattling that is present in this phase.

NOTICE

Recommended dosage:

- For sport use:
1 bottle of 1 liter treats 40 liters of fuel
For a result of an increase of more than 3 points of the octane number
(SCS analysis, ESP98: 100.4 - ESP95: 99.3)

ADVANTAGES

- Increases octane number
- Increases the engine performance

■ Made in France
